This is to certify that

Ms. MAHALAKSHMI A, Assistant Professor
of **SRI SHAKTHI INSTITUTE OF ENGINEERING AND TECHNOLOGY**

has attended Webinar on

EFFECTIVE CONDUCT OF ONLINE CLASSES

on 8th May, 2020.

Organised by
Department of Electrical and Electronics Engineering
Sri Eshwar College of Engineering, Coimbatore.

Head of the Department
Dept. of EEE

Principal
Sri Eshwar College of Engineering

Certificate of Completion

This is to certify that **Mageshkumar C** successfully completed 14.5 total hours of **Machine Learning, Data Science and Deep Learning with Python** online course on April 19, 2020

Sundog Education by Frank Kane *Frank Kane*

Certificate of Achievement

Congratulations!

Arun Kumar

for successfully completing
TCS ION Career Edge - Young Professional
 a course that covers

Communication Skills | Presentation Skills | Soft Skills | Career Guidance Framework | Resume Writing
 | Group Discussion Skills | Interview Skills | Business Etiquette | Effective Email Writing | Telephone
 Etiquette | Accounting Fundamentals | IT Foundational Skills | Overview of Artificial
 Intelligence (Source: NPTEL)

Start Date: 26 Jun 2026

End Date: 14 Jul 2026

**Girls are breaking the Gender Stereotypes!
Sri Shakthi Institute of Engineering and Technology conducted a Special Women's Day Boat Rowing at Sular Lake. We thank every participant who served justice for the theme of Each for Equal.**

Present day multilevel inverters are used for medium voltage high power applications which has attracted many of the industries and researchers to concentrate on the hybrid topology with reduced number of components. The major disadvantage of the multilevel inverters are Total Harmonics Distortion (THD), switching loss and conduction loss. The proposed Hybrid Packed U-Cell (H-PUC) topology with reduced number of switches. The proposed H-PUC requires one dc source, 6 switches and two capacitors to provide 7 level output voltage. The proposed H-PUC topology comprised with two high voltage low frequency (LF) and low voltage high frequency (HF) which leads to less power loss and high efficiency. The proposed topology is simulated and validated on hardware setup for 7 level asymmetrical is performed using C2000 microcontroller. The performance of the proposed inverter is analysed and corresponding simulations are taken in MATLAB software. The feasibility of the proposed H-PUC inverter topology favours renewable energy integration applications.

Nikhil Madhav

POWERHOUSE OF PLACEMENTS

Sri Shakthi has established career development cell to provide immense importance to placement activities and follows an all around placement system to train students from day one.

The visit of 100+ recruitment companies and over 600+ offers bagged by the students successively in recent years made our institution a colossal powerhouse of placements

SRI SHAKHTI

Institute of Engineering and Technology

The first computer mouse was introduced in 1968 by Douglas Engelbart

Douglas Englebart introduced the frist computer mouse in 1968 at the Fall Joint Computer Expo in San Francisco. He created a gadget rolling back and forth with a wooden base using two wheels, which was the first mouse ever that could fit into a hand of the user, Since its inventiion, many inventions for interacting with computers have followe, but the mouse remains the most efficient hands-on pointing device available for speed and accuracy.

A word of thanks will not be enough to express our gratitude towards every women of Sri Shakthi Institute of Engineering and Technology who marched towards the success of walkathon

Vision

To contribute effectively to the important national endeavour to produce quality human resource in the information technology and related areas for sustainable development of the country's IT industry needs.

Mission

The mission of the Computer Science program is to prepare students to be research and development leaders in computer science and computer technology. To this end, the program is a catalyst and a resource for shaping the future of the broad discipline of computer science.

Thank

You
